Okanagan-Similkameen
Extreme Heat Assessment and Planning

Please join us for an **IN-PERSON** Collaborative Community Engagement Session at the
Oliver Community Hall

Communities across the Okanagan-Similkameen are working together to improve our region's resilience to heat waves. We want to hear from you about how heat waves have impacted you in the past and what more is needed to protect our communities. Your input at these sessions is essential to help us chart a path toward helping our region stay safe and cool.

Each session will cover the same content, including:
- An overview of the project goals and current findings.
- Interactive workshops to gather your insights, feedback and experiences.

May 21, 2024
Oliver Community Hall
6150 Main Street, Box 638,
Oliver BC V0H 1T0
